LINKEDIN | LEETCODE | GITHUB | PORTFOLIO

TECHNICAL HIGHLIGHTS

Full-Stack Development · Cloud Optimization · AI/ML Deployment · Competitive Programming · Open Source Contributions

SKILLS

Programming Languages: C++, Python, JavaScript, SQL
Frameworks & Libraries: React.js, Node.js, Express.js, Bootstrap
Cloud & Databases: Oracle Cloud, Azure, AWS, MongoDB, MySQL
Development Practices: Software Development, Software Maintenance, Debugging, Code Review, API Development, Version Control
Methodologies: Agile Methodologies, Competitive Programming, Algorithms, Analytical

WORK EXPERIENCE

SDE Intern, Airtel Digital *Sep 2025 – Present, Noida, India*

- Configured VPCs, subnets, and HUB services for customer cloud deployments on Airtel Cloud.
- Provisioned cloud resources as per solution designs, ensuring smooth MPLS and service integration.
- Partnered with an 8-member engineering team to design **system architecture** for scalable, fault-tolerant services.
- Conducted **code reviews** and created **technical documentation** to standardize best practices.
- Applied **DevOps practices** and **continuous integration** pipelines to streamline deployments.

AI & ML Trainee – NVIDIA *Mar 2024 – Mar 2025*

- Engaged in **software development** of supervised and unsupervised ML models, boosting accuracy by 20%.
- Engineered and optimized deep neural networks, applying **algorithms** for NLP and vision tasks, achieving 25% improvement.
- Deployed AI solutions into production with **software testing, debugging, and maintenance** for 90%+ accuracy.

PROJECTS

Bank Account Management System |MERN Stack, Python *Aug 2025 – Sep 2025*

- Developed a full-stack Bank Management System using React, Node.js, and MongoDB, improving data handling speed by **30%** through optimized CRUD operations.
- Code: GitHub · **Frontend:** https://bank-2-ahol.onrender.com | **Backend:** https://bank-1-o60e.onrender.com

AI Interview Assistant | React, TypeScript, Redux, AI APIs *Feb 2025 – Mar 2025*

- Built an AI-powered interview assistant with resume parsing (PDF/DOCX) and AI APIs for question generation, real-time answer evaluation, and a scoring dashboard, boosting mock interview efficiency and feedback accuracy by 40%.
- Integrated resume parsing and automated question flow, enabling users to complete a structured mock interview in under 5 minutes.
- Code: GitHub · Live Demo: https://interview-assistant-pz6p.onrender.com

ACHIEVEMENTS

- **Solved 800+** problems across various platforms; maintained a **500+ day streak** on LeetCode.
- Ranked **#2 in CodeChef Contest**, showcasing strong analytical and algorithmic skills.
- Winner, **Smart India Hackathon** (college level) with an AI-driven solution.
- **3 PRs merged** in open-source repositories.
- Led **10+ innovation initiatives** at IIC ABESIT.

EDUCATION

Bachelor of Technology in Computer Science and Engineering, ABESIT GROUP OF INSTITUTES *Nov 2022- Oct 2026*

AISSCE / CBSE (Class XII), Daffodil Public School *Apr 2020 - May 2022*
